SOME CONSIDERATIONS

The company can offer *summer courses* or even *boarding school*. The company can have up to **50%** of the workforce to deal with it. To compensate this increase, the affected workers will be paid a single salary supplement, per full worked week, based on a percentage of their gross monthly salary, excluding functional supplements.

20% gross monthly salary/week worked

10% gross monthly salary up to a maximum of 50% of the contracted working hours

If you work over 50% but do not reach 100% of the contracted day, you will be charged with the *proportional part*.
